All You
Need to
Know About
Learning
Theories

*Both ends of this continuum are important, and schools should integrate them whenever possible to produce the best balance between the two models of learning.

The Schoolwide Enrichment Model

Joseph S. Renzulli & Sally M. Reis

How Does The Schoolwide Enrichment Model Differ From Other Approaches to Total Talent Development?

Enrichment Oriented Learning Environments and Opportunities

For All Students and Special Interest Learning Groups

The Enrichment Triad Model

Curriculum Compacting for All High Achieving Students in Their Domain Specific Strength Area(s)

TAXONOMY OF COGNITIVE & AFFECTIVE PROCESSES

(The "Type II Matrix" JSR: 2001)

**Type II
Enrichment**

I. Cognitive Thinking Skills
A. Creative Thinking Skills
B. Analytic, Problem-Solving & Decision-Making Skills
C. Critical and Logical Thinking Skills

III. Learning How-To Learn Skills
A. Listening, Observing, & Perceiving
B. Reading, Notetaking, & Outlining
C. Interviewing & Surveying
D. Analyzing & Organizing Data

V. Written, Oral, and Visual Communication Skills
A. Written Communication Skills
B. Oral Communication Skills
C. Visual Communication Skills

II. Character Development and Affective Process Skills
A. Character Development
B. Interpersonal Skills
C. Intrapersonal Skills

IV. Using Advanced Research Skills & Reference Materials
A. Preparing for Research & Investigative Projects
B. Library & Electronic Reference
C. Finding & Using Community Resources

VI. Meta-Cognitive Technology Skills
<ul style="list-style-type: none">• The ability to identify trustworthy and useful information• The ability to selectively manage overabundant information• The ability to organize, classify, and evaluate information• The ability to conduct self-assessments of web-based information• The ability to use relevant information to advance the quality of one's work• The ability to communicate information effectively

What Are Enrichment Clusters?

Non-graded groups of students who:

- 1. Share a common interest*
- 2. Come together during specially designated time blocks to pursue their interests*
- 3. Produce a product, performance, publication, presentation, contest or competition entry, or some form of service or community action project*

Two Major Decisions for Developing an Enrichment Cluster Program

1. Over time, provide clusters that cover the major areas of knowledge.

General Performance Areas

Mathematics
Visual arts
Physical sciences
Philosophy

Social sciences
Law
Religion
Language arts

Music
Life science
Movement arts

2. In basic skill areas, provide an academic range of clusters that accommodate high levels of challenge for your highest achieving students in particular subject areas.

Mathematics

High Achieving Students

All Students

All Students

Creative Writing

High Achieving Students

*Example is the best school of mankind and
they will learn at no other.*

Philosopher, Edmund Burk

Cluster
Title

Social Entrepreneurship: Starting a Business to Help Others

Have you ever thought about raising money so you could help people in our community who may need something they can't afford?

In this cluster you will be asked who and how you might like to help others. We will have some local owners of small businesses tell you about how they got started and the things they did to promote their business. You can then make plans to explore the tools you need to actually start your own small business.

Inviting
Description

Type I Enrichment (Start-Up Activities)

Local business owners came in to tell how they started their businesses (A Donut Shop and a Children's Toy Store)

Students brainstormed what types of businesses they might want to start to raise money for a charitable cause.

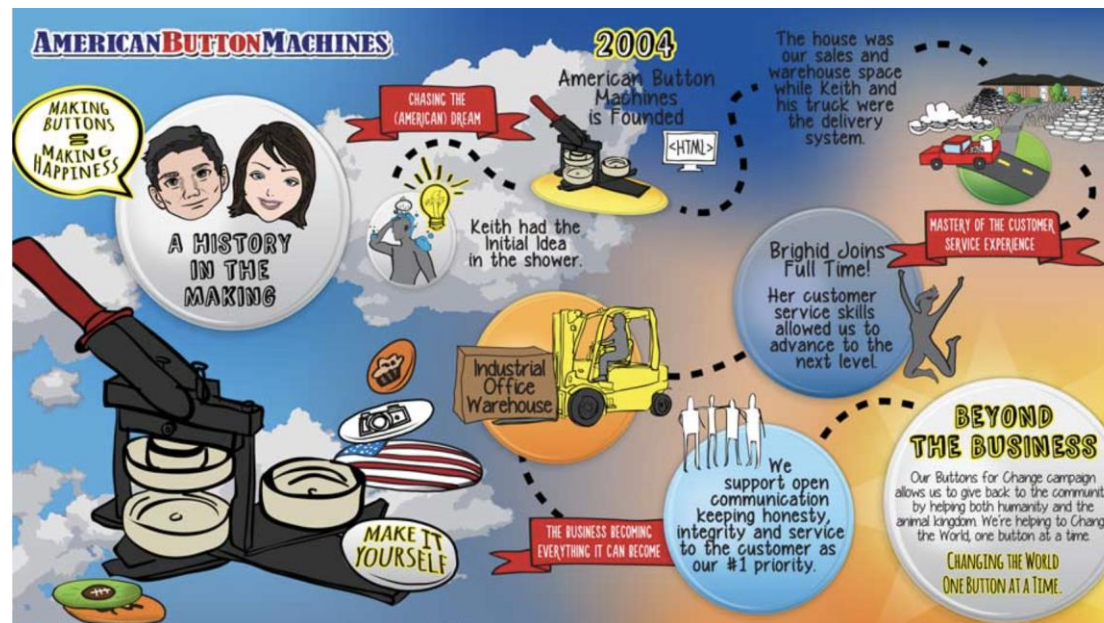

Video on Enrichment Clusters from NYC

- One of many that are available on the web
- Let's watch the joy on the faces of the children... and their teachers!

I. Cognitive Thinking Skills	II. Character Development and Affective Process Skills
A. Creative Thinking Skills	A. Character Development
B. Analytic, Problem-Solving & Decision-Making Skills	B. Interpersonal Skills
C. Critical and Logical Thinking Skills	C. Intrapersonal Skills
III. Learning How-To Learn Skills	IV. Using Advanced Research Skills & Reference Materials
A. Listening, Observing, & Perceiving	A. Preparing for Research & Investigative Projects
B. Reading, Notetaking, & Outlining	B. Library & Electronic Reference

The Totally Awesome Money Book For Kids by Arthur G. Berg and Arthur Berg
 The Money Market Press, 2003 | ISBN: 1957044937

Written by a kid savvy business expert, this book is full of cartoons, drawings, quizzes, games, riddles and stories to help you learn the basics of saving, investing, borrowing, and taxes. It also aims to teach you how to get what you want, how to bargain, and how to talk to business partners and parents.

**Type III
Enrichment
Development of a
Real Product**

The Basics of Enrichment Clusters

Major Features of Enrichment Clusters

Theme: Every Student is special if we create conditions that make that student a specialist in a specialized group.

- 1. The Golden Rule of Enrichment Clusters: All activity is directed toward the production of a product or service.**
- 2. Students *and* teachers select the clusters in which they will participate. *All* students and teachers are involved.**
- 3. Students are grouped across grade levels by interest areas.**
- 4. There are no predetermined lesson or units plans.**

- 5. The authentic methods of professional investigators are used to pursue products and service development. [\[How-to Books\]](#)**
- 6. Divisions of labor are used to guarantee that all students are not doing the same thing.**
- 7. Specially designated time blocks are set aside for clusters.**
- 8. The Silver Rule of Enrichment Clusters: The rules of regular school are suspended!**

Divisions of labor is very important.

Students should be doing different jobs based on their interests and strengths when carrying out their work.

Six Key Questions

[For Facilitating an Enrichment Cluster of Type III Investigations]

- 1. What do people with an interest in this area do?**
- 2. What products do they create and/or what services do they provide?**
- 3. What methods do they use to carry out their work?**
- 4. What resources and materials need to produce high quality products and services?**
- 5. How, and with whom, do they communicate the results of their work?**
- 6. What steps need to be taken to have an impact on intended audiences?**

A few things you should *NOT* do when you develop clusters...

Develop unit or Lesson plans!

Have predetermined expectations other than some kind of creative productivity.

Talk too much.

Have every student doing the same thing.

Conduct a traditional, orderly, quiet classroom.

Preparing students for a test.

What do we mean by creative/productive giftedness?

Sources of Information and the Development of Thinking Skills

Type 3 Enrichment

The Assembly Plant of Mind
Applying Knowledge & Skills to a Product, Performance, or Presentation

TEACHER TRAINING ACTIVITY

Three Questions....

1. Who came?

2. What did the students do (not learn)?

3. What roles did you play?

High-End Learning

Teacher Roles and Responsibilities

These are some of the skills that define the role of what we call **“The-Guide-On-The-Side”** as opposed to **“the sage-on-the-stage.”**

Please list the roles you fulfilled in addition to the role of instructor and disseminator of information?

- General Contractor
- Conductor (as in a symphony)
- Consultant
- Counselor
- Accountant, Fund Raiser
- Operations Manager
- Business Agent
- Forager/Scavenger
- Therapist, Confidant
- Advocate
- Production Manager
- Secretary
- Internet Detective
- Recorder (for young kids)
- Librarian
- Taxi Driver
- Coach
- Producer, Director, Stage Manager (as in a play)
- Press Agent
- Talent Scout
- Arbitrator
- Auditor
- Supply Sergeant
- Transportation Coordinator
- Caterer
- "Fixer" (something like a lawyer)
- Friend
- Editor
- Collaborator

The Teacher's Role as Guide-On-the-Side

**Your main role as
an Enrichment
Cluster facilitator**

**SAGE ON
THE STAGE**

GUIDE ON THE SIDE

The Teacher's Role as Guide-On-the-Side

1. Keep an informal tracking of your verbs...

Typical Verbs
Used for
Raising
Questions
About
Three Kinds
of Knowledge

Interest and
Engagement
for All
Students

Divisions of Labor

Finding Students' Interests, Learning Styles, and Preferred Modes of Expressing Themselves

Reverse Engineering

Working “backwards” from interests, product, and expression style preferences to necessary skills for product development

Expression Style Inventory (Sample Items)

My Way . . .

An Expression Style Inventory
K. E. Kettle, J. S. Rensulli, M. G. Rizza
University of Connecticut

Products provide students and professionals with a way to express what they have learned to an audience. This survey will help determine the kinds of products **YOU** are **interested** in creating.

My Name is: _____

Instructions:
Read each statement and circle the number that shows to what extent **YOU** are **interested** in creating that type of product. (Do not worry if you are unsure of how to make the product.)

	Not At All Interested	Of Little Interest	Moderately Interested	Interested	Very Interested
Example: writing song lyrics	1	2	3	4	5
1. writing stories	1	2	3	4	5
2. discussing what I have learned	1	2	3	4	5
3. painting a picture	1	2	3	4	5
4. designing a computer software project	1	2	3	4	5
5. filming & editing a video	1	2	3	4	5
6. creating a company	1	2	3	4	5
7. helping in the community	1	2	3	4	5
8. acting in a play	1	2	3	4	5

Table 1: Expression Style Inventory Items, Factors/Components and Loadings:
Principal Factor Analysis (PFA) with Varimax & Oblique Rotations
Principal Component Analysis (PCA) with Varimax & Oblique Rotations

Name of Factor or Component	PFA		PCA		PCA	
	Item	Item PFA	Number	Stem Varimax	Varimax	Oblique Oblique
	Loading	Loading	Loading			Loading
1 Computer	interactive computer project	.89	4	.14	.86	designing an
	game	.88		.89		designing a computer
		.84		.84		software program
		.89		.88		
2 Service	designing a computer software program	.84	44	.82	.84	designing a multi-media computer show
	Products	.89		.82		designing information
		.82		.85		designing computer
		.83		.79		working to help others
3 Products	for the computer internet	.83	7	.81	.78	helping others by fund
	animation	.81		.84		helping in the community
		.77		.70		helping others by
		.83		.78		helping other students
4 Service	raising	.73	7	.73	.72	
	supporting a social cause	.68		.70		
				.27		
				.17		

What do we mean by Expression styles?

Just a Few Product Options

Things young people create as they investigate various topics of interest and interact with the principles, concepts and methodology of one or a combination of disciplines. The goal is always the same – **Impact Upon Audience** the *raison d'être* of the creative and productive person.

- **Artistic Products**

LOGISTICS

WHO: All students in your school, grouped by 2–3 grade levels (i.e., GRADES 1–3, 4–6)—All teachers and professionals in the school, parent volunteers, community members to work with professionals

WHAT: ENRICHMENT CLUSTERS FOR ALL, potentially sponsored by your PTO for expenses (but these are often not expensive)

WHEN: A SERIES OF TWO, EACH YEAR—8 in the fall and 10 in the spring, Friday or Wednesday afternoons

WHERE: All over the school, spaces for under 10 and up to 25 (with more than one adult).

WHY: Joyful Learning

Six Key Questions

[For Facilitating an Enrichment Cluster of Type III Investigations]

- 1. What do people with an interest in this area do?**
- 2. What products do they create and/or what services do they provide?**
- 3. What methods do they use to carry out their work?**
- 4. What resources and materials need to produce high quality products and services?**
- 5. How, and with whom, do they communicate the results of their work?**
- 6. What steps need to be taken to have an impact on intended audiences?**

Save Our Planet

- Would you like to become a “Dumpsite Detective” and uncover ways to reuse our trash?
- Would you like to see worms at work reducing our lunchroom garbage?

Join **The Recyclers** and become an expert in converting trash into *treasures*!

Be a Mother Nature Super Hero and Save the World!

Abc... Click!

**The Alphabet can be found all around us...
Do you like to take pictures? Have an eagle eye? Join this cluster and use technology to take pictures of letters that you find in nature and architecture.**

Cardboard Arcade

Do you like going to arcades?

Do you like to create things from leftover boxes?

Join us to help create the first ever
Kelly Lane School Cardboard Arcade!

Cooking With Books

Do you like to cook?

Do you like to read books?

**Do you like to make recipes that
go along with books?**

Join us for some FUN!!!

Duct Tape Doodads

Do you like to create with Duct Tape?

Do you like to make someone smile?

Can you imagine raising money for a charity of your choice?

Come and have some fun while we create Duct Tape crafts to make people smile.

Crime Scene Detectives

**Would you like to be a detective?
Investigate crimes?**

**Have you ever
wondered what it takes
to solve a crime?**

**If investigating a crime, gathering
evidence, and solving mysteries strike
your curiosity then this is the cluster for
you! Join The Crime Scene Detectives**

Sample Cluster Descriptions

➤ *The Poets' Workshop*

What is it like to be a poet? Explore the poetry of some of America's greatest poets, including Robert Frost, Langston Hughes, Emily Dickinson and others. Write, illustrate, and perform original poems or interpret others' work. Identify outlets for our work.

➤ *Invention Convention*

Are you an inventive thinker? Would you like to be? Come to this cluster to brainstorm a problem, try to identify many solutions, and design an invention to solve the problem. Create your invention individually or with a partner under the guidance of Bob Erickson and his colleagues. You may share your final product and the Young Inventor's Fair, a statewide, day-long celebration of creativity.

The Arts and Mathematics

- The Electronic Music Research Institute.
- The Visual Artist's Workshops
- The Meriden theater Company
- The Native American Dance Institute
- The Video Production Company
- The Young Musicians' Ensemble
- The Photographers' Guild
- The Math Materials Publication Company
- The Math Mentors' Association
- The Female Mathematicians' Support Group
- The Mathematics Competitions League
- *The Math Puzzle Challenge Quarterly*

Social Sciences and Humanities

- The Hispanic Cultural Awareness Association
- The Junior Historical Society
- The Social Science Research Team
- The Torrington Geographic Society
- The Creative Cartographers' Guild
- The Young Authors' Guild
- The Poet' Workshop
- The African-American Literary Society
- The Investigative Journalism Group
- The Quarterly Review of Children's Literature
- Save the Theater Group

Technology and Sciences

- The Computer Graphics Design Team
- The Computer Games Production Company
- The Computer Literacy Assistance Association
- The Creative Software Society
- The Desktop Publishing Company
- The Save the Dolphins Society
- The Physical Science Research Institute
- The Mansfield Environmental Protection Agency
- The Experimental Robotic Team
- The Horticultural Beautification Committee
- Save our Rivers and Waterways

What Cluster will YOU facilitate?

- What will the title be?
- What is your first line of the description?
- Think about what you love to do in your spare time—get a fun, descriptive title.
- Talk to an expert who works in this area-get a guest speaker for a Type I.
- Go on line and find some fun background reading and video clips about your topic.
- Find a few examples of creative products, especially if they were done by young people and plan to talk about them with your students.
- Find some competitions and contests/ask what is a problem we can solve in our community or area?
