

BOOK HOOK PLANNING

What is the purpose for your book hook? (Consider linking to one of the “E’s”)

What is your goal or objective? (Note any specific linkages to standards)

Given the purpose and learning objective, what book or books will you use?

What is a portion of the book that will best introduce the book, meet the purpose, and facilitate progress toward the learning objective?

What question or questions will you ask before, during, or after reading?

How will this book hook connect to other book hooks within the same week and/or to expectations for responding to conferences and written questions?
