Come See Us at NAGC!

Going to NAGC26 in Milwaukee? Connect with us there! The Renzulli Center will have a booth in the exhibit hall, and members of our team are presenting throughout the conference. Check out our presentation list here, and please come visit us at the booth for some fun swag! We love catching up with old friends and meeting new ones at NAGC!

Friday, Nov. 6, will be Spirit Day at NAGC -- everybody is encouraged to wear NAGC gear or school gear! We'd love to see a great show of Husky spirit -- wear your UConn gear and stop by the booth to take some photos with us!

Full conference details here: https://www.nagc.org/annual-convention (NAGC26: Growing Talent. Advancing Potential.)

Upcoming Events

Attention CT Folks! Free Workshop - Register Now!

We are excited to offer a one-day workshop to Connecticut educators interested in exploring an additional option for identifying student talent. Project EAGLE (Eliciting Advanced Gifted Learning Evidence) addresses the critical need for assessment systems that better identify missed talent. We tackle the issue of under identification, which leads to untapped talent, by implementing a dynamic approach to recognizing gifted behaviors. This approach empowers grade 3 through 5 teachers to use our *Points of Promise* observation checklist, designed to identify characteristics of mathematical potential and talent, as they observe and engage students in five problem-based math activities specifically crafted to elicit gifted behaviors.

We are offering a **NO COST** workshop at the **University of Connecticut** in Storrs on **Thursday, November 19**, from 9 a.m. to 4 p.m. Attendees participate in 6 hours of a workshop on the EAGLE approach, which includes identifying gifted math behaviors and SEI strategies.

This may satisfy GT, ESL, or math training hours, depending upon district requirements. Each attendee will receive a bound copy of the EAGLE lessons for classroom use!

Space is limited - register now! For more information and a link to register: https://identifygifted.education.uconn.edu/connecticut-project-eagle-training/ (Connecticut Project EAGLE Training)

UConn Honors College - Center Connections

UConn recently announced the approval of its Honors College—a new phase in the history of what was until recently the UConn Honors Program! The Renzulli Center has a long history of connections with Honors at UConn. Read more here about connections with the Enrichment Triad Model, and here about the recent announcement of the Honors College! Congratulations to our friends at UConn Honors!

Job Opportunities

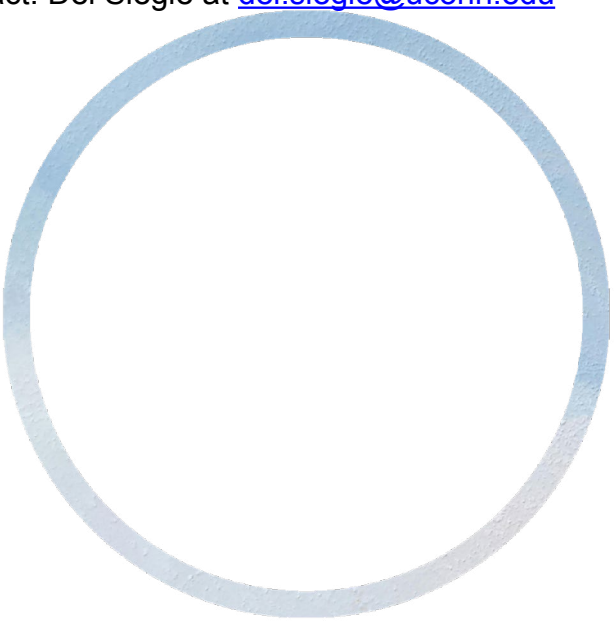

Grayson School Leadership Position Available

The Grayson School offers an innovative educator an exciting opportunity to work with curious, engaged students, teachers who genuinely love what they do, and families who care deeply about the school, all within a close-knit PreK–12 community.

Founded in 2015, Grayson is an independent school in Radnor, Pennsylvania, designed specifically for gifted learners. The Lower School combines a challenging, research-based curriculum with close attention to each child's academic, social, and emotional development. The school is looking for a leader who loves working with gifted children and teachers, values collaboration, and wants to help shape the future of this distinctive school.

Interested parties can read the full position announcement here and find the application on the school's website.
